EDUCATION

Master of Computer Application | CGPA 9.0   *November 2022 – May 2024*
IICMR, Pune, India

Bachelor of Computer Science | CGPA 9.3   *June 2019 – March 2022*
Tuljaram Chaturchand College, Baramati, India

HSC | 81.53 %   SSC | 94.80%
Mudhoji High School and Jr College, Phaltan, India

EXPERIENCE

Kaldin IT Solutions – *Software Development Intern*   *January 2024 - June 2024*
Tech Stack used: JSP, Servlet, JAVA, MySQL, Jquery, Ajax, Bootstrap
Scorepulse (Credit Repair App):
- **Email Verification**: Designed and implemented email verification processes, including template creation and service logic.
- **Invoice Management**: Developed an invoice tab to display current and past payment plans within the user profile.
- **Dashboard Optimization**: Enhanced dashboard performance by optimizing methods to fetch counts in a single call.
- **Payment Calendar**: Integrated payment history calendar for both open and closed accounts, streamlining user access to payment records.
- Applied key principles of the **Agile model** throughout the project lifecycle.

ManasYoga(Exam Platform):
- **Database Optimization:** Consolidated tables into a single table to streamline the management of questions for four different exams.
- **Reschedule Functionality**: Implemented rescheduling logic allowing users to reschedule exams, including creating reschedule buttons and modals for various user categories.
- **Coupon Management**: Developed service and controller methods to retrieve and manage the latest coupon details, ensuring systematic assignment of coupon names upon exam rescheduling.
